RESEARCH INTERESTS

Human-in-the-loop machine learning, active learning, deep learning, explainable AI for text, data integration (entity understanding and resolution), and data exchange.

EDUCATION

University of California, Santa Cruz, USA 2012-2017
Advisers: Balder ten Cate, Phokion Kolaitis, and Wang-Chiew Tan
Ph.D. in Computer Science

Beihang University, CHINA 2007-2010
Master in Software Engineering

Chongqing University, CHINA 2003-2007
Bachelor in Software Engineering

ACADEMIC AND WORK EXPERIENCE

IBM Research 2017 - present
Software Designer and Research Scientist *San Jose, CA*

· I am a member of the Scalable Knowledge Intelligence Group at IBM Almaden Research Center. My work at IBM focuses on designing and implementing human-in-the-loop machine learning (or, active learning-based) systems for entity understanding.

University of California Santa Cruz 2012 - 2016
Teaching Assistant & Graduate Student Researcher *Santa Cruz*

IBM Research Summer 2015, Summer 2013
Summer intern *San Jose*

Nanyang Technological University 2010 - 2011
Project Officer *Singapore*

· I worked with Prof. James Cheng (now at The Chinese University of Hong Kong (CUHK)) on a project that compares row-store database systems and column-store database systems.
